

James L. Holly, M.D.

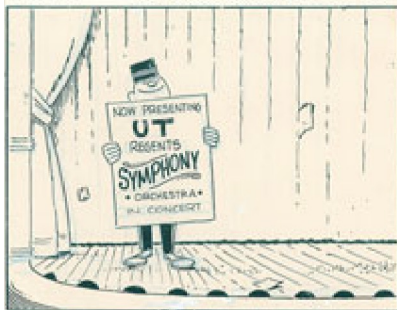

The dismissal of School of Medicine Dean, F. C. Pannill, M.D. June, 1972 San Antonio Express News, Bob Dale editorial Cartoons

These files are from the June, 1972 San Antonio Express news. They are of the events surrounding Dr. Pannill's dismissal Bob Dale was or is a nationally known editorial cartoonist. One day, I went to the News after they published my letter to the Regents of the University of Texas Board. I expected a letter to the editor; they published it as 40 point type, front page, above the fold.

I saw the original pen and ink editorial cartoons on Bob's desk and asked him what he was going to do with them. He said, "Throw them away." I asked if I could have them; I still do. I have taken the originals out of the frames and had very high resolution, digitized versions made -- far too large to e-mail. I am having two sets printed and framed. One for Fitz and the other for the School of Medicine.

Hope you find these as historically valuable as I do.

Dr. Holly
