## **Medical Home News Dr. Marvin Forland Response to Dr. Holly's Critique of Alex Tolbert's Top Three Obstacles to Better Primary Care**

Good morning, Larry,

I appreciate your notes. Thank you for sharing your mode of primary care delivery exchange. There is no substitute for a carefully examined experience and your SETMA experience is setting new standards for model affordable and excellent primary care. I very much agree with your positions and your presentation is cogent, trenchant and extraordinarily well-documented.

Thank you and have a wonderful family 4th,

Marvin
