## **ABIMF July 8th Response to Question About SETMA**

**Subject: Re: ABIM Foundation**

[Choosing a Provider & Provider Organization \(2014\)](#)

SETMA currently possesses accreditation for Patient- Centered Medical Home and for Ambulatory Care from:

1. NCQA -- 2010-2016
2. AAAHC -- 2010-2017
3. URAC -- 2014-2017
4. The Joint Commission -- 2014-2017

We also hold NCQA recognition for:

1. Diabetes -- 2010-2016. SETMA is the only multi-specialty group to be a Joslin Diabetes Affiliate.
2. Cardiac and Stroke -- 2014-2017
3. Distinction in Patient Satisfaction -- 2014 (this is awarded annually for Consumer Assessment of Healthcare Provides and Systems)

SETMA public reports by provider name on provider performance on over 300 Quality Metrics. We are in our sixth year of reporting and have data displayed for 2009, 2010, 2011, 2012, 2013 and for the first six months of 2014. This can be reviewed at the following link: [Public Reporting - Reporting by Type](#)

Monthly we close our six clinics for one half day during which we all meet for four hours of training, discussion, teaching and review of performance. The ABFM gives their diplomats CME credit for these sessions.

The following link describes SETMA's Automated Team which we think is the logical extension of Clinical Decision Support

[Tutorial for the EMR Automated Team Function](#)

The following link discusses our understanding and use of Data Analytics

[The Importance of Data Analytics in Physician Practice](#)

The following describes SETMA's development of What If Scenarios for The Framingham Risk Scores

[Framingham Cardiovascular and Stroke Risk Assessment Tutorial](#)

SETMA would be delighted to discuss more of our work with you.

Dear Dr. Holly,

We've received your request for any documentation in the ABIM Foundation's possession related to the site visit the Foundation conducted in 2004. Unfortunately, we do not have any such documentation. We did appreciate receiving the update from you in 2012 and would welcome hearing any further updates about your work.

Best,  
Tim
