

James L. Holly, M.D.

Baptist Chief Nursing Officer's Response to SETMA New I Patient Initiative

November 4, 2015

Dr. Holly,

I did note your definition of prescribing and agree. I was most excited to see you detail the physician requirements for medication reconciliation. I wish all physicians took this process as seriously as you.

I know it has only been two nights with physician coverage at night, but I can tell you it is making a very positive difference. A nocturnist program, which you developed seemly overnight, truly is transforming healthcare. I am looking forward to working with your group to maximize the benefits of this program.

Best wishes and I look forward to us working together to create the highest standards for healthcare in Beaumont.

Karen

Karen Tomsu, RN, DHA, MPA, MSN

Subject: Definition of prescribing.

I never had a response to my definition of prescribing which I promised and sent to you before I went home that dat. See it at the end of the below link.
