Subject: Subject: Followup to Dr. Holly's article?

Dear Dr. Holly,

I hope this email finds you well. I wanted to get in touch with you about a paper you authored entitled "Fearlessly facing the future. Case study: a Texas practice's implementation of EMR and a fully integrated back-office system.". Firstly, thank you for taking the time to publish this, it was an interesting read. Have you continued working in this area? If you have any other articles or ongoing research I would love to know more.

I am hoping to discuss with you having a short follow-up article or perhaps a review article published in one of the next issues of the journal I serve as an editor for, the Medical Research Archives. I think our readers would be interested in a paper with information from any continued research or new data since this was published. It would be especially helpful if the article could be written for more of a general medicine audience so that many sub specialties could gain from it. The article would not have to be long, and any of your co-authors or colleagues would be welcome to contribute to it. I am happy to assist in any way I can, and there is no hard deadline.

Could you please let me know your thoughts on this?

Sincerely,
Dr. Kateryna Bielka, M. D.
