

James L. Holly, M.D.

Subject: Re: updated distribution list -- Quality metrics to be fulfilled incidental to excellent care and not as the intention of care

Thank you Hani. Both of our groups have been enriched by your visit. Healthcare transformation through PC-MH models of care is a great method for building, learning and experiencing effective and excellent international coalitions. I do not forget that it is through the generosity and vision of Dr. Paul Grundy and his connections which creates these opportunities for us and many others.

Totally agree with Michael's comments. Larry and the team have inspired all of us. I hope you get a good time in Philadelphia, looking forward to exchange opinions and ideas as we start our journey here in Western Sydney for PCMH
