Response from Michael Fasher on Joint Commission article

Response from Australia (a group from Australia visited SETMA a few years ago) to Joint Commission article this AM

Dear Larry

“When change is driven only by external demands, it is not sustainable and will become dependent upon rewards to drive improvement. But when change is driven by internalized values and vision, being self-sustaining and generative in nature, it is sustained not by financial or other rewards, but by the passion of the participants.”

Perfectly put.

I remain grateful for and energised by this insight. Visiting SETMA lit a fire and this is the match.

Michael
