MON, MAR 19 | WHAT IS PRIMARY CARE?

11:30a-1:30p PRIMARY CARE INFORMATION TABLE

12:00p-12:50p WHAT IS PRIMARY CARE? Round Table Discussion

Join us for a Round Table discussion with Primary Care Providers from various disciplines including: medicine, nursing, pharmacy, public health and others. We will explore the question “What is Primary Care?” from various perspectives followed by a robust conversation about how our various perspectives shape one common vision of primary care.

5:00p-6:00p US Health Care: THE GOOD NEWS (PBS documentary screening)

TUES, MAR 20 | THE MOST VULNERABLE AMONG US: SERVING THE UNINSURED, UNDERINSURED & UNDERSERVED

11:30a-1:30p PRIMARY CARE INFORMATION TABLE

12:00p-12:50p SERVING THE UNDERSERVED Panel Discussion

Come learn about the healthcare disparities that affect San Antonio and how the University Health System (UHS) is rising to the meet the growing challenge of serving vulnerable populations in San Antonio. The National Health Service Corp (NHSC) provides scholarships and incentives for students who select careers in primary care. Hear how they are meeting the needs of communities across America.

WED, MAR 21 | PRIMARY CARE TOWN HALL & EXHIBITION

11:30a-3:00p PRIMARY CARE INFORMATION TABLE

11:30a-3:00p PRIMARY CARE EXHIBITION & POSTER SESSION

Visit Exhibition booths of various Health Science Center academic departments and institutes, San Antonio community organizations and student groups that are serving primary care needs. Primary care research and service projects by Health Science Center faculty & students will be showcased in the Poster Session.

3:00p-5:00p PRIMARY CARE TOWN HALL

The Keynote address, “Progress in Primary Care” will be delivered by **Dr. James L. Holly**, UT Health Science Center Alumni and CEO of Southeast Texas Medical Associates (SETMA). Dr. Holly will describe the evolution of primary care delivery from his perspective as a community healthcare provider and describe the innovations that are driving a more sustainable and patient-centered approach in healthcare. The address will be followed by a facilitated community dialogue exploring various questions: What is driving the demand for primary care and why are primary care providers in short supply? What are the stigmas associated with primary care and how can we encourage more students to consider careers in primary care? What are the challenges faced by providers in our community? How can the Health Science Center continue to drive innovation and improvement research in primary care?

5:00p-6:00p CELEBRATING THE WORK OF PRIMARY CARE PROVIDERS

Join the Office of the President for a celebration of the work of Primary Care Providers in our community.

THURS, MAR 22 | PRIMARY CARE FOR OUR CHILDREN & OUR AGING

11:30a-1:30p PRIMARY CARE INFORMATION TABLE

12:00p-12:50p CARING FOR CHILDREN & AGING POPULATIONS

Pediatric and geriatric providers will share their experiences working with specific populations. What are issues involved in providing care to children? As the population ages, is there an adequate supply of providers committed to the needs and circumstances of the aging?

FRI, MAR 23 | THE FUTURE OF PRIMARY CARE: TEAM-BASED HEALTHCARE

11:30a-1:30p PRIMARY CARE INFORMATION TABLE

12:00p-12:50p THE FUTURE OF PRIMARY CARE: TEAM-BASED HEALTHCARE DELIVERY

The Center for Patient Safety & Health Policy and the School of Nursing are finding unique and innovative approaches team-based healthcare delivery. Come hear more about the exciting future of primary care at the Health Science Center.
