## WITH THE POWER OF INFORMATION

SETMA providers measure their performance by national  
**Standards of Care every day, with every patient.**

- **HEDIS (Healthcare Effectiveness Data and Information Set)**

Measures the quality of care for preventive, acute and chronic conditions. Through SETMA's electronic medical record, we evaluate our HEDIS performance. In 2010, we will report our HEDIS performance at [www.setma.com](http://www.setma.com).

- **NQF (National Quality Forum)** - Promotes healthcare quality improvement by endorsing national consensus standards for measuring and publicly reporting. For 2009, SETMA is reporting on thirty-two NQF measures and will report on 62 for 2010.

## WITH THE POWER OF AUDITING

SETMA's COGNOS Project using  
**IBM's Business Intelligence Software**

With COGNOS, SETMA will audit your employees' and loved-ones' care. Before every visit, compliance with HEDIS, NQF, NCQA, PQRI, and PCPI will be measured. After the visit, an audit will determine if the standard of excellence we expect has been met.

**HEALTHCARE WHERE YOUR HEALTH IS THE ONLY CARE**
